ABOUT ME

I'm a Computer Science Engineering student passionate about blending technology and creativity. Skilled in front-end development (HTML, CSS, JavaScript) and programming (Python, C, C++), I enjoy building intuitive interfaces and solving real-world problems. I also have experience in photo/video editing and 3D design using Photoshop, Premiere Pro, and Blender.

EDUCATION

DR MGR EDUCATIONAL AND RESEARCH INSTITUTE
Bachelor of Technology in Computer Science and Engineering

2023-2027

SKILL

- Front-End Web Development
- Python Programming
- C/C++ Programming
- Photo Editing
- Video Editing
- 3D Modeling & Animation
- Problem Solving
- Basic SQL
- Figma

WORK EXPERIENCE

Portfolio Website 2024
Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript. Focused on creating custom layouts, interactive navigation, and a mobile-first design to effectively showcase the client's work and personal brand.

Photo & Video Editing Showcase 2023
Created visual content using Photoshop and Premiere Pro, including thumbnails, social media posts, and edited videos for personal or mock clients. Applied color grading, transitions, and audio synchronization.

3D Animation Short (Blender) 2018-2019
Modeled, textured, and animated a short 3D scene using Blender. Practiced camera movement, lighting, and rendering for cinematic output.

Resume Ranker Web App 2025
A tool that scores resumes against job descriptions using keyword matching and basic scoring logic. Built as a Hackathon project as a web app.

Mini Projects in Python and C++ 2023
Built basic programs such as calculators, number games, and file handling utilities to strengthen logic-building and programming fundamentals.

Poster Design for a Cafe 2025
Created an eye-catching promotional poster for a cafe, blending warm color tones, modern typography, and inviting visuals to highlight the cafe's ambiance and offerings.
